MOTOCROSS SAFETY COMMISSION

2020 TRACK INFO KIT

For Track Owners and personnel

www.motoxsafety.com

Services Offered to all Tracks

- **Track Certifications** (more info below)
- **Flagger Certifications**
 - Available 100% online with instant test results
 - Unlimited accounts are available to Track Owners to certify as many flaggers as you need for 1 year
- **Flagger Search**
 - Find flaggers to work your events, even look up their event history and XP score to get the best possible
- **Event Listings** (only available to Certified Tracks)
 - List your events for the public to see, post your crew so riders can view how qualified they are
 - Your safety score goes up as you add events, helping your facility climb up the rankings making you more desirable to riders and families
- **New Rider Booklets**
 - Hand these out to first-time riders to help them develop safe practices before ever getting on the track
- **Safety Materials**
 - Flags, flagger vests, directional signs and other items that tracks most commonly need are available in our store

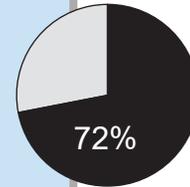

Benefits Of Using MSC Services

Why should you care about any of this as a track owner? The answer is simple, our services not only help you to be safer, but also more profitable! As an MSC Certified Track, you will be considered an elite facility not just in your area, but in the country. This gives you the upper-hand against competing tracks. You can see from our survey results that everyone cares about

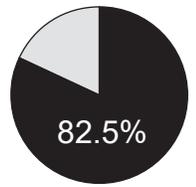

their safety. As we polled riders from all over the country, 74% of them responded that they would be likely to go somewhere that certified over a facility that was not. Our projections show this would be 25-50% increase in rider turnout. This means you would not only make back any money spent on services but also increase profits.

If you also add your events to our site and add Certified Flaggers to those events, your MSC Score will continue to rise, further enhancing your status and creating a reputation across the country.

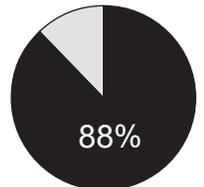

How important is safety when choosing where to ride?

Age 18-39

Age 40+

Age 5-17
(Parents)

What Comes With A Certification?

- 100+ point inspection of facility for avoidable hazards

- Monthly newsletter to stay up-to-date
- First response pack filled with medical items
- 5 Flagger vests
- 10 New Rider Booklets
- MSC "Certified" Banner
- Social media campaign by us notifying area riders of your Certification
- 15% Discount on all Store items
- Access to adding your events

How Do I Get Certified?

STEP 1

Contact us to schedule our visit. Although the inspection process may take a few hours, we only need 3 hours of your time for training, and even that is split between whoever you want from your facility for each subject.

STEP 2

Once we have scheduled the visit you will pay through our online store. Payment is secure and locks in your date.

STEP 3

Once the day comes, we will show up at the scheduled time to begin the process. The order in which we go about our process can be altered to fit your schedule for the day, or the schedule of others who are participating. Below is a list of the steps we take during the day.

TRACK INSPECTION

No guidance is necessary for this step. We will take about an hour and check for any outlying dangers. If it is an open day at your track we will watch the general flow and procedures, giving advice as needed.

INJURY RESPONSE TRAINING

This step requires either the facility owner, manager, or personnel who will be at the track the most and in charge of attending to injured riders. This can be for one person or as many as you would like. This step will go over how handle to injuries specific to the sport as well as general first aid.

FLAGGER TRAINING

We will train every flagger you have, or just one "Head Flagger". If able, we will train the flaggers on your track showing them specifically what to do in each position. If not, we will take them through our comprehensive course and quiz, distributing Flagger Certification cards upon completion. This will allow them to flag at any of our partnered races!

SUMMARY

As the final step we will summarize our inspection, give you the certification diploma, badge, First Contact Backpack, and quickly summarize the final steps on our end including social media posts and any final thoughts. You will also be able to contact us at any time with further questions.

Thank you for your interest in MSC.
